

ENFORCEMENT SENSITIVE

ATTORNEY-CLIENT PRIVILEGE

MEMORANDUM FEB 3 1990

TO: The File
FROM: Beth A. Henning *Beth A. Henning*
RE: Albion Sheridan Township Landfill
Phone Conversation Record

I contacted Arlow Wilkinson (517/787-1307) on February 1, 1990 to follow up on an interview conducted by a contractor, Brian O'Neal, on May 5, 1988. Arlow had been the operator of Gordon Stevick's AST Landfill since 1967 or '68. I inquired as to the types of wastes which had been brought to the AST landfill. Arlow had mentioned several companies in his previous phone interview with B. O'Neal. To the best of his knowledge and memory, the types of waste that were disposed of at the Site are as follows:

<u>COMPANY</u>	<u>TYPE(S) OF WASTE</u>
Brooks Foundry	Foundry sand; some 55 gal. drums
Hayes Albion ¹	Fifty-five gal. drums, barrels
Albion Sanitary Service	General refuse; no liquids
McGraw Edison	No liquids
Seiler Trucking Service	Liquids ²
City Disposal Company	Paper, general refuse
Scott's Disposal	"Dry" things (general refuse)

¹ Now known as Harvard Industries.

² A. Wilkinson stated that allegedly Seiler would pull up with their truck and "pull out the plug and let it [the liquids] go" onto the ground.

Union Steel³

Mostly dry goods; little liquids in drums

Ideal Foundry

No liquids; foundry sand

Albion Metal Products

Iron; wood

Decker Manufacturing

No liquids

The AST Landfill kept records of the companies which did not pay their bills. Arlow did not have these records; Arlow thought that perhaps they are located at the Site or in the possession of Mrs. Stevick.

Arlow and his wife currently live at: 116 Gibson Place
Jackson, Michigan

cc: Jason El-Zein (removal action)
Mary Beth Novy (remedial action)

³ Formerly a division of Eagle Picher Industries (until 1982).
